If you want to learn Photoshop, as many people do, you can get a lot of help using the Internet. If you Google, for example, "How to use Photoshop," you'll get more than one million results, including paid courses, free tutorials, manuals, and help guides. In this article, we'll take a look at how to use Photoshop and review some of the most popular tools for creating images, including the ones that come with Photoshop. Using Photoshop Despite being a popular image manipulation program, Photoshop is less commonly used than many other applications like Adobe Illustrator and InDesign. We'll give you a crash course on Photoshop, including how to create images, modify them, and work with them. Creating Images You start Photoshop by creating an image. You can create a new document and, from the menu that appears when you open an existing document, select New. From the New dialog box, choose a new document size (if you want to stretch or contract the dimensions of an image), and enter a new name for the file. You can also change the resolution (size) of the image you're creating. You should also ensure that you have layers set up and that the Edit and View tabs are set to Large Thumbnails so that you can see your image clearly onscreen. If you are creating a layered Photoshop document, it's helpful to click on the Layers button to see the layers laid out onscreen. You can easily click on the layer you want to work on and change its opacity to see the effects of the settings that are applied to the layer. A layered Photoshop image is made up of a stack of objects called layers. Layers allow you to organize and combine different elements or objects on an image. They work like nested folders. Last updated on.From the section Football Tomas Rosicky played more games for Arsenal than any other player in the 2004-07 era Former Arsenal midfielder Tomas Rosicky has criticised manager Arsene Wenger for leaving out attacking players such as Olivier Giroud and Alex Oxlade-Chamberlain. Arsenal host Barcelona at the Emirates Stadium on Saturday, 24 August. Wenger has since said he is targeting a "more balanced" side in his first team squad after dropping Arsene Wenger's fourth hat-trick in five games - and the longest-ever run by a manager in the Champions League - against Basel last week. "You cannot have a system where you go two or three points ahead and then suddenly change that system," said Rosicky. "We win trophies with our direct style and it needs certain players to play in that style. Giroud, Oxlade-Chamberlain and maybe [Alexis Sanchez - there are three or four players like that." Rosicky, who has played for the Gunners from 1999 to 2011, added: "I think our team will look much better with better players - and I am not talking about Wayne Rooney. "I just think there are other players who can be used for the roles that Giroud plays and, in that sense, I am quite disappointed." Wenger said the nature of Arsenal's results had changed recently after wins against Manchester City and Chelsea. "We need to win when we are not playing well and that is what we have done recently," he told the club's website. "The team was good but we lacked concentration. We lacked the pace to keep up with Barcelona and I don't think there is any solution to that. "You need speed on the ball, you need to be in the right position and have nerves in your legs." In the Champions League group stage, Arsenal are third after a 4-1 victory at Olympiakos on Tuesday. They are 14 points adrift of leaders Bayern Munich. Wenger said: "I can only see one solution to it. It is that you get out of your comfort zone. "That is the meaning of it. You need to lose. You need to be out of your comfort zone. You need to play in a different manner. "For sure we are not out of the Champions League yet but we must start doing that."Wednesday
