
Backup Thunderbird For Windows (2022)

BackupThunderbird.org is a free Thunderbird backup program that allows you to make an image file of your Thunderbird mailbox (containing email, calendars, contacts, and much more), and other information. Backup Thunderbird is an application that gives you the opportunity to create backups for Mozilla Thunderbird, including all email accounts, RSS feeds, newsgroups and address book, in order to create BAK files. The tool automatically detects your installed copy of Thunderbird, along with all profiles and data, requesting you to exit the tool before creating a new backup. As you can see, Back up Thunderbird is quite simple to use. You only need to specify the saving directory and file

name. It's also possible to apply password protection to encrypt the backup item and restrict the access of other PC users, but this is optional. The tool also gives you the possibility to restore a backup from an existing file and set the correct password necessary for decryption. Backup Thunderbird has many similar applications, but when searching for software, you can select it without any worries, knowing that when you're finished with the way it looks, this application is going to be the one you've always used. Ease of Use Ease of Use Backup Thunderbird Backup Thunderbird Backup Thunderbird The software application didn't put a strain on the computer's performance in our tests, running on a low amount of CPU and RAM. We haven't experienced any stability issues, as it didn't hang, crash or

indicate errors. Best regards, Matej Boleš

What's New in this version: Version 3.5.1 - Supports other operating systems (Linux and Windows) - Improved and bugfixes App Details Version 1.6.0 Rating (5) Size 17Mb Genre Productivity Utilities Last updated October 28, 2016 Release date October 28, 2016 More info App Screenshots App Store Description Backup Thunderbird is a straightforward piece of software that gives you the possibility to create backups for Mozilla Thunderbird when it comes to email accounts, messages, RSS feeds, newsgroups and address book, in order to create BAK files. Needless to say, you must have Thunderbird installed to

Backup Thunderbird Crack + Download

Backup Thunderbird Rating: 4.4 out of 5 (2

votes) Backup Thunderbird uses your computer's hard disk for the actual backup, which is quite fast and doesn't require much space. The default backup file extension is.tbk, and you can choose to either move it afterwards to another directory, or to compress it using 7-zip. For more details on this software solution, take a look at our Backup Thunderbird review. Find out more about how we make money Some of our team makes money from products we recommend on the website.
